

SCALE LITE

FOR TRACTORS

Scale Lite brings the proven Scale-Pro technology to the agriculture industry. Built on the same reliable, field-tested platform, it delivers accurate weighing and dependable performance in a lighter configuration tailored to agricultural applications. Trusted technology, now designed to meet the day-to-day demands of farming operations.

**Ideal for silage, corn,
and accurate, efficient
hay bale weighing**

Simple and quick installation

Made in Canada

KEY FEATURES

Height reference: The built-in inclinometer indicates bucket height, helping avoid obstacles during material or feed dumping operations.

Accurate rations: Precise weighing of ingredients ensures balanced rations tailored to herd requirements.

Time savings: Weigh directly on the tractor during feed preparation and distribution.

SCALE LITE FOR TRACTORS

Better quantity control reduces costly waste and improves overall cost efficiency.

Perfect for hay bale weighing.

Consistent, precise weighing ensures rations are accurately balanced to meet herd requirements, supporting uniform feeding and overall performance.

CUSTOMER INSTALLATION KIT

Take advantage of the Scale Lite customer installation kit for effortless & fast self-installation.
